

mechanical and electrical systems pdf

Mechanical, electrical and plumbing (MEP) refers to these aspects of building design and construction. In commercial buildings these aspects are often designed by an engineering firm specializing in MEP. MEP design is important for design decision-making, accurate documentation, performance and cost-estimation, construction planning, managing and operating the resulting facility.

Mechanical, electrical, and plumbing - Wikipedia

Mechanical systems drawing is a type of technical drawing that shows information about heating, ventilating, air conditioning and transportation around the building (Elevators or Lifts and Escalator). It is a powerful tool that helps analyze complex systems. These drawings are often a set of detailed drawings used for construction projects; it is a requirement for all HVAC work.

A building permit is a license which grants legal permission to start a construction project. Building permits provide a means for the Building Division to reduce the potential hazards of unsafe construction, therefore ensuring the public health, safety and welfare. Before any construction work begins on a new structure, remodel or renovation project, an application for a building permit ...
