Computer art is any art in which computers play a role in production or display of the artwork. Such art can be an image, sound, animation, video, CD-ROM, DVD-ROM, video game, website, algorithm, performance or gallery installation. Many traditional disciplines are now integrating digital technologies and, as a result, the lines between traditional works of art and new media works created ...

3. Safety and quality, concerns for food industry. Food quality, including safety, is a major concern facing the food industry today. The production and consumption of food is central to any society and has a wide range of social, economic and in many cases environmental consequences.

Traceability in a food supply chain: Safety and quality

The first-order approximation to the solution of the Boltzmann-Curtiss transport equation is derived. The resulting distribution function treats the rotation or gyration of spherical particles as an independent classical variable, deviating from the quantum mechanical treatment of molecular rotation found in the Wang Chang-Uhlenbeck equation.
