

social movements social change pdf

A social movement is a type of group action. Social movements can be defined as "organizational structures and strategies that may empower oppressed populations to mount effective challenges and resist the more powerful and advantaged elites". They are large, sometimes informal, groupings of individuals or organizations which focus on specific political or social issues.

The term new social movements (NSMs) is a theory of social movements that attempts to explain the plethora of new movements that have come up in various western societies roughly since the mid-1960s (i.e. in a post-industrial economy) which are claimed to depart significantly from the conventional social movement paradigm.. There are two central claims of the NSM theory.
