Redesign of professional health education is necessary and timely, in view of the opportunities for mutual learning and joint solutions offered by global interdependence due to acceleration of flows of knowledge, technologies, and financing across borders, and the migration of both professionals and patients.

**Health professionals for a new century: transforming**

Frequently in my early teaching career, I taught a computer literacy course. In this course I taught my student that a computer is a machine for the input, storage, processing, and output of information.
